contest

Interlocking table family

Self-produced, 2018
(Design, Manufacturing, Potography)

Simple construction and solid materials. Interlocking legs, around a supporting frame, allow to build a full family of surfaces, ranging from side to dinner tables.

Low sidetable in european hay and carrara marble

Interlocking table family

*Self-produced, 2018
(Design, Manufacturing, Potography)*

Simple construction and solid materials. Interlocking legs, around a supporting frame, allow to build a full family of surfaces, ranging from side to dinner tables.

Dinner/side version with laquered MDF tabletop (prototype)

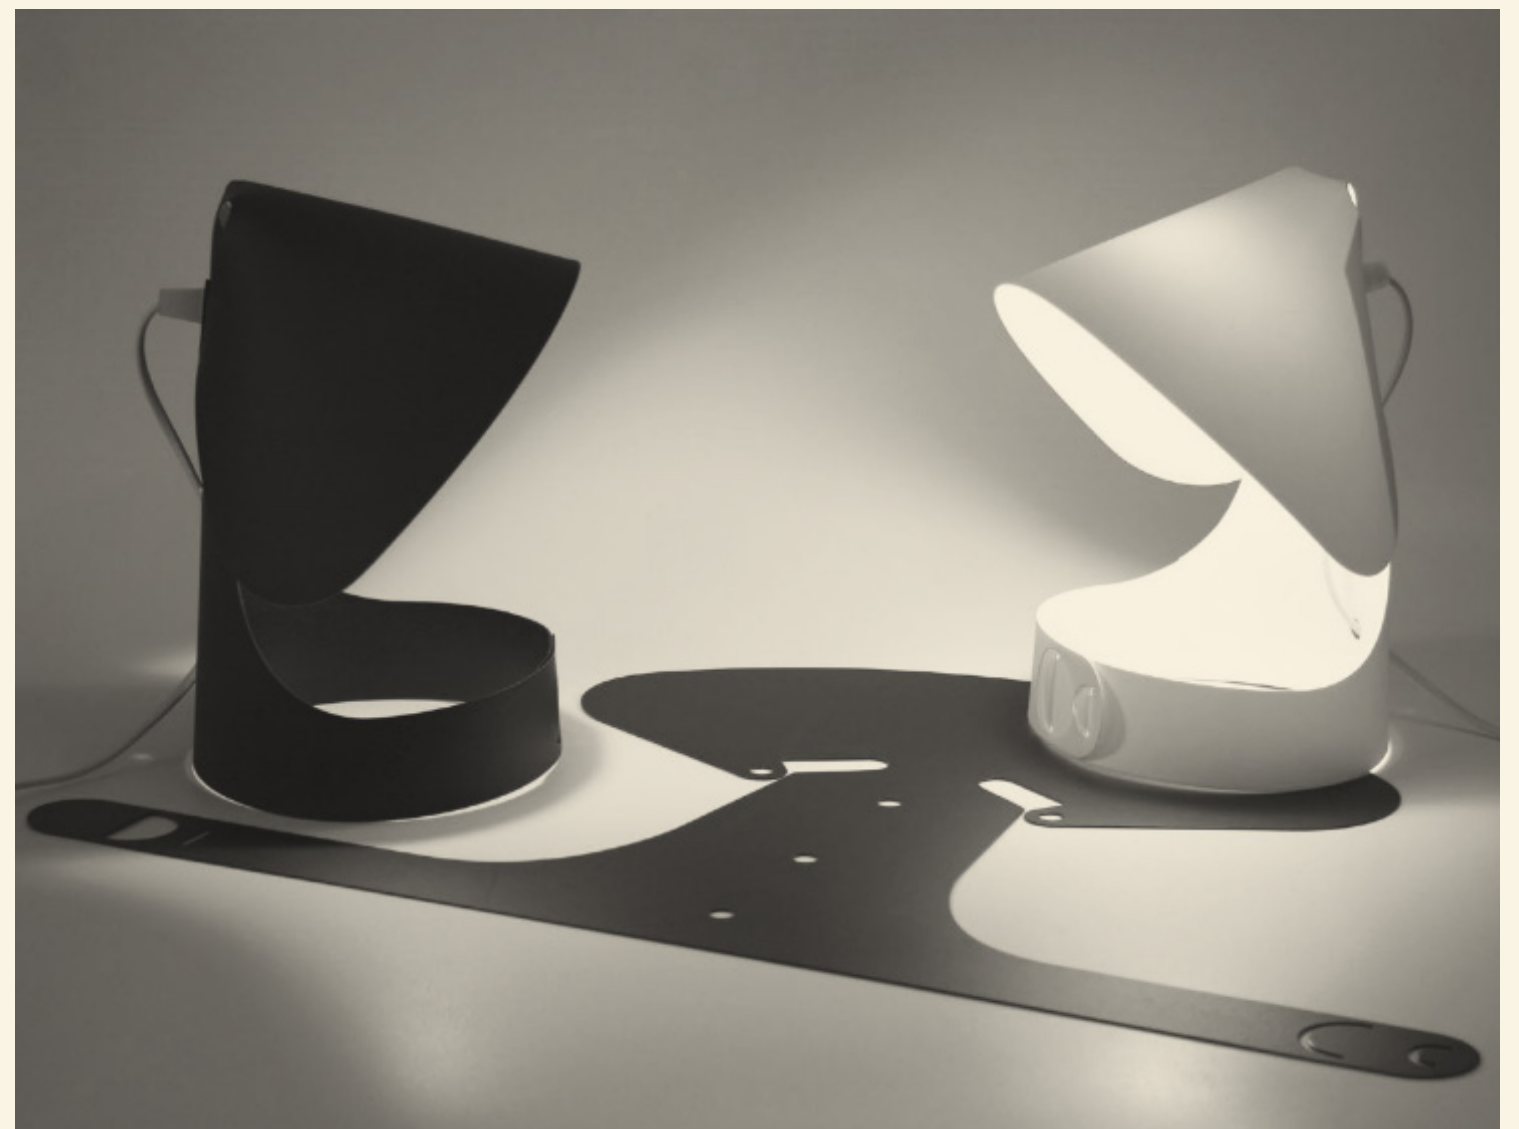

Table lamp

Self-produced, 2015
(Design, Manufacturing, Photography)

Beautiful and cost-effective lighting.
Punch-cut and bended sheet
of polypropylene gives structure
to the object and provides warm
direct/indirect lighting.

*Selected for incubation at
Centro Metropolitano de Diseño
Buenos Aires, Argentina*

Modular containers

Self-produced, 2018
(Design, Manufacturing, Potography)

Family of modular containers
made from raclaimeed plywood

Pliable and highly flexible, allow for
multiple uses, from storage and
tray, to side tables.

*Raclaimed birch plywood from
IT packaging*
